Dear Parents:

Thanks for your interest in our summer camp program. This is our tenth summer of offering a stimulating and developmentally appropriate program in a warm and loving setting.

We specialize in preschool children and have designed a summer program that incorporates both fun and education. Our goal for our three year old program is to have our youngest students become comfortable with school and to ease their transition into the school year. We will read stories, do crafts, sing songs, and help facilitate their free and structured play in order to develop their social awareness. We ask that your three year old be potty trained.

For our students entering Pre K, Kindergarten or First Grade, our goal is to continue to expose them to pre readiness and readiness skills in reading and math as well as other content areas such as science. Students will be grouped according to grade level. Research indicates that students who are learning new academic skills need to have these skills reinforced especially over the summer break. We deliver our curriculum in a fun, upbeat way appropriate for a summer camp. The best way to teach children is through lots of love and high interest activities. We offer lots of that!

I have attached all the information you will need in order to enroll in our wonderful summer camp.

If you are not a parent of a student in our school, give us a call and arrange for a tour.

Thanks for your interest. I hope you'll be joining us this summer.

Sincerely,

**Marilyn Beutel
Director**
